

Machine Setup for MCD e-tendering System

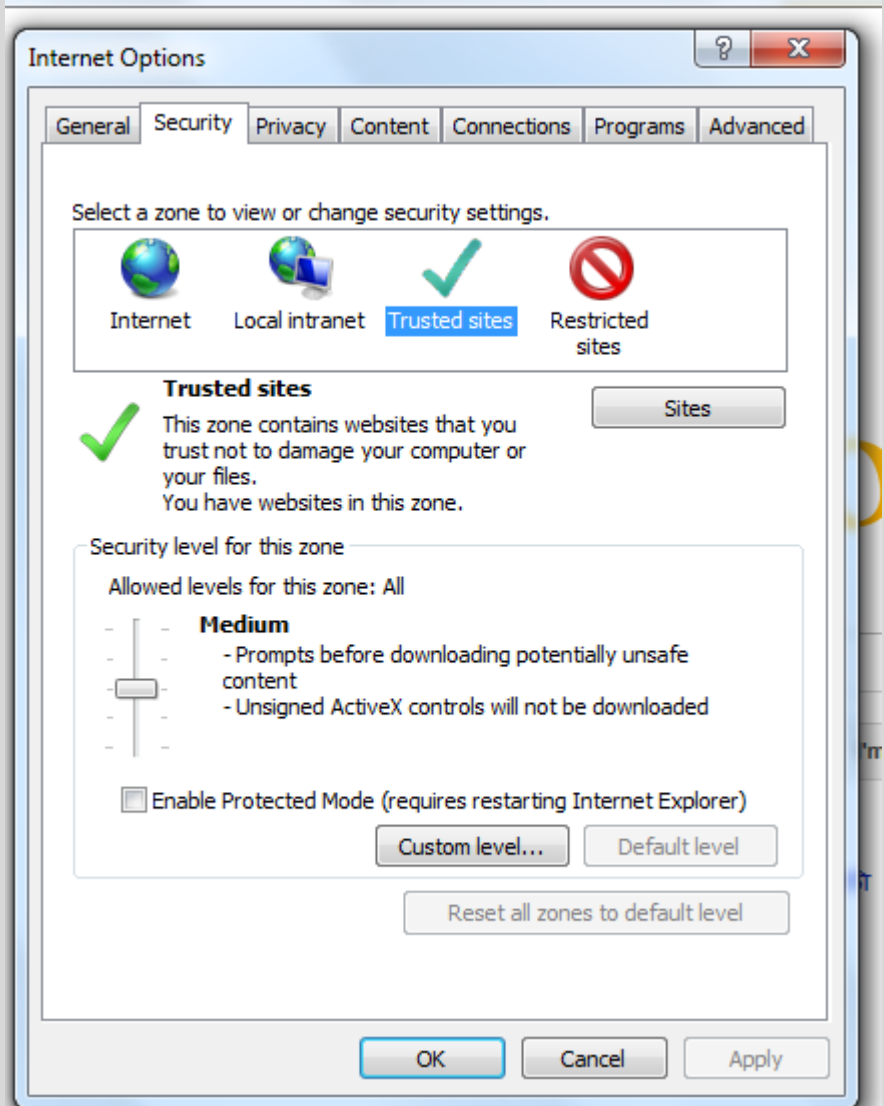

Issue Description	Solution	Screen Shots
<p>1) Download the required utilities.</p>	<p>You have to download & Install the three utilities available under the downloads section of MCD e-Tendering main portal i.e. http://mcdetenders.com</p> <p>Download the below mentioned three utilities from the download section.</p> <ul style="list-style-type: none"> • SHA 2 Utility • Number to Word Conversion Utility (Indian Currency) – if you are going to quote in INR only. • Number to Word Conversion Utility (Foreign Currency) – if you want to quote in any foreign currency. 	

Now double click on the "Enumtotextclient.exe" utility & install in the same manner by clicking on the next button. Now we have to do the 2nd step i.e. adding the sites to the trusted zone, for that refer the below mentioned instructions.

2) Adding the websites to trusted zone.

Click on security tab to proceed with the adding of the sites to the trusted zone.

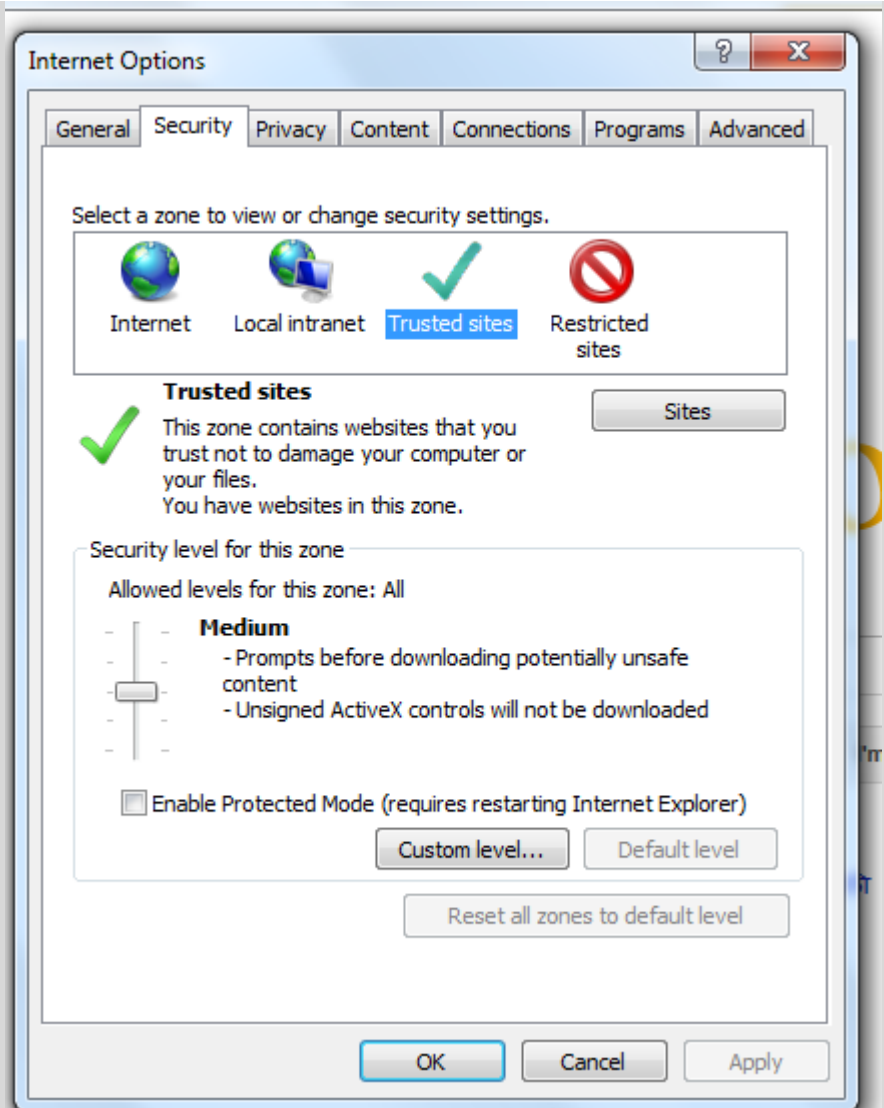

The internet

Click on security tab to proceed with the adding

option window will look like this Under the security tab.

of the sites to the trusted zone.

Here select the "Trusted sites" icon & click on the sites button to add the site to the selected zone.

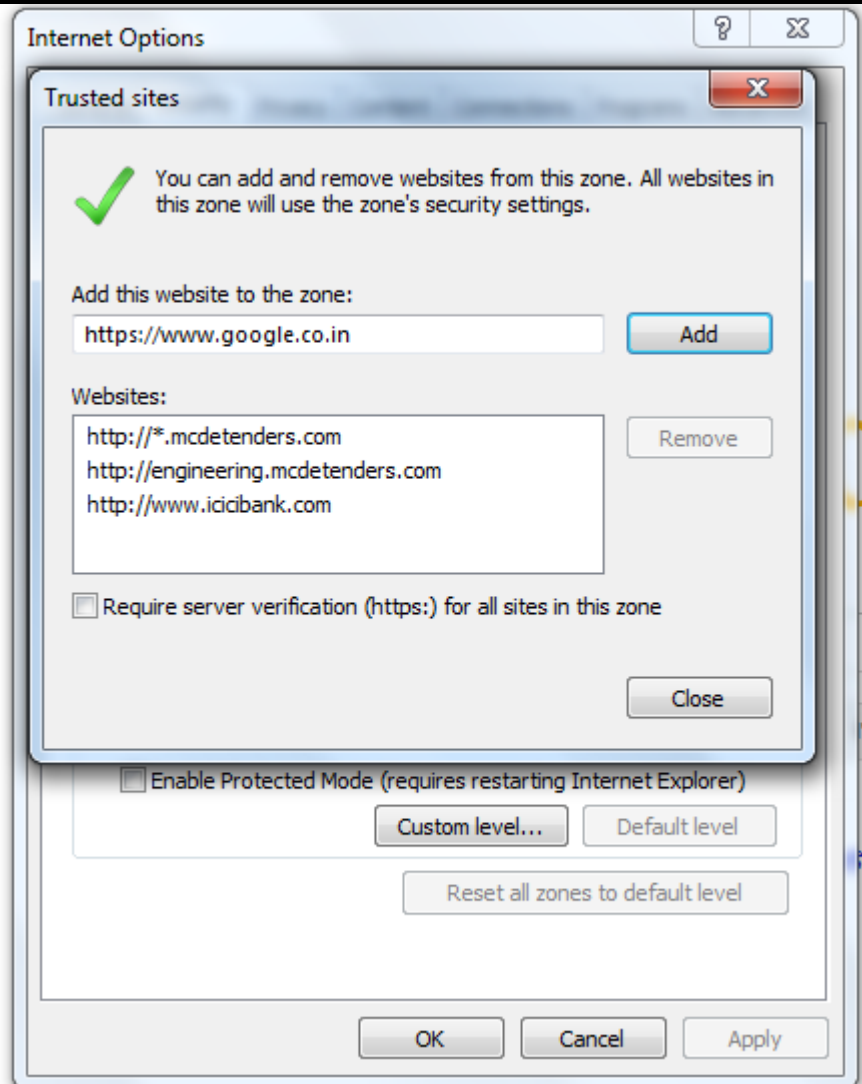

Adding the websites.

1) Uncheck the Require server verification checkbox.

2) Enter the site name which you want to add to this zone then press add button. Confirm by verifying that site name is transferred to websites zone (the 2nd box).

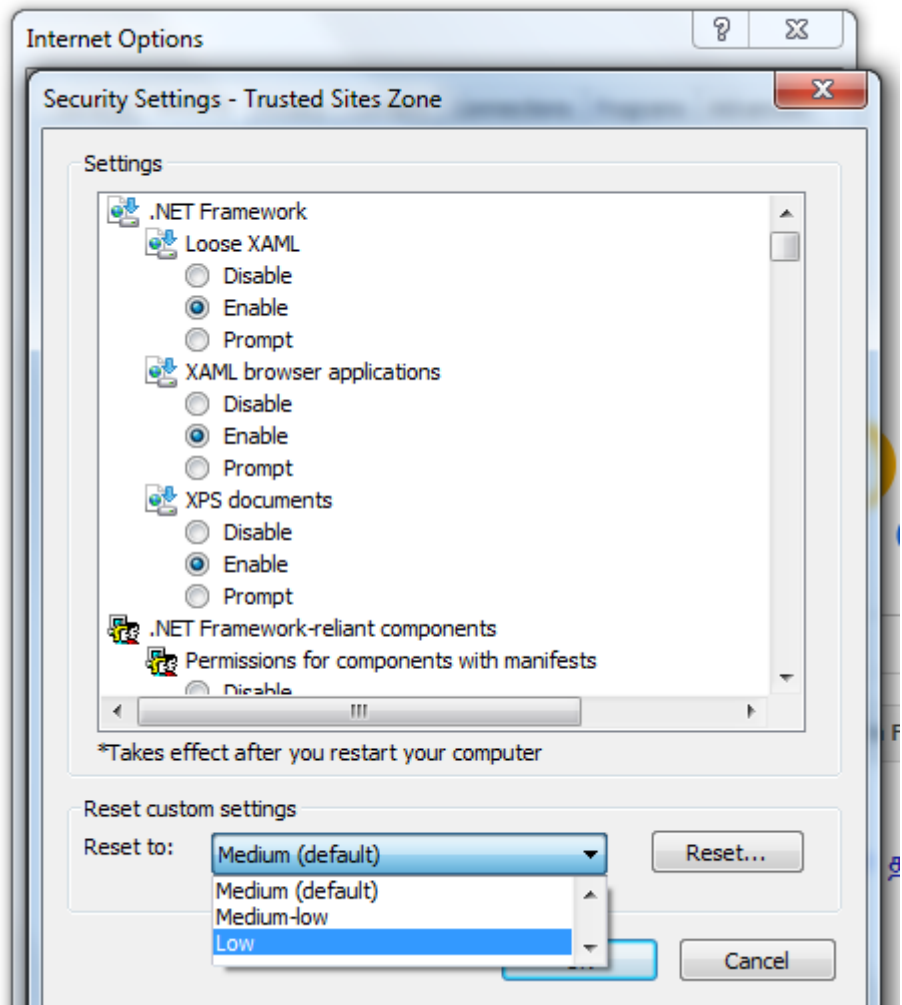

3) Enter these sites
http://*.mcdetenders.com

4) Now click on close then press "apply" to ensure the changes. Now click on "custom level" button.

3) Enabling "Active-X" controls.

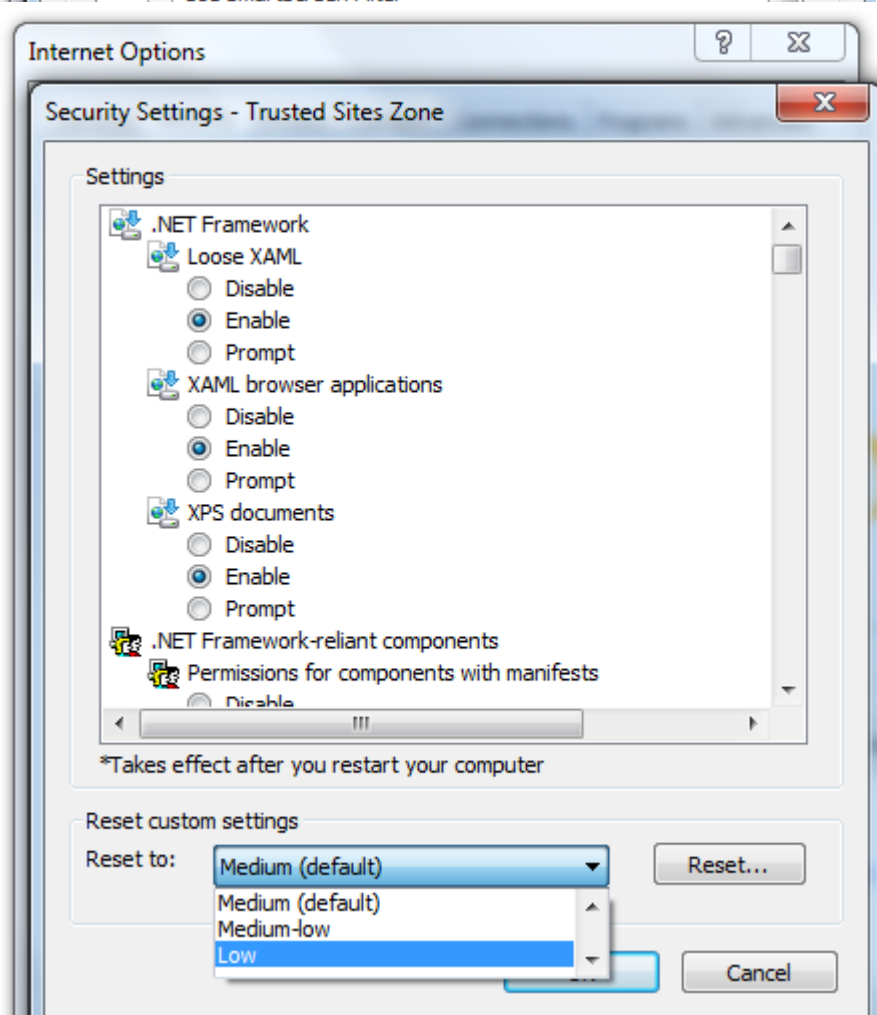

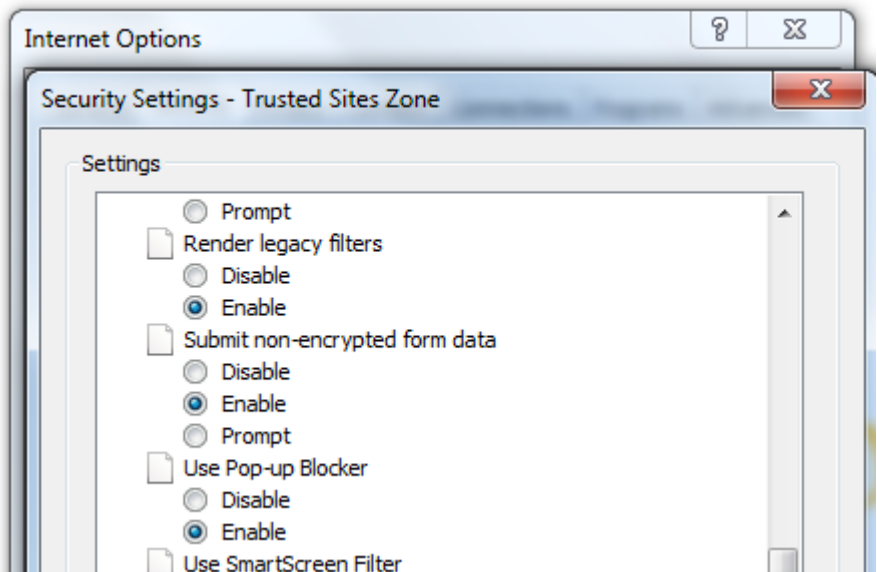

To enable the "active-X" controls, under the security tab click the "Custom level" button which is present at the bottom under the custom level page.

Enable all the Active X controls available under this section, wherever we are getting options like enable, disable, prompt. Kindly enable all the Active X controls & Plugins

Kindly ensure that the "Use Pop-up Blocker" must be Disabled else it may lead to various error messages mentioned in Troubleshooting section at the bottom of this help manual.

Enable all the controls, and then click on ok to finalize the settings. A confirmation dialogue box will appear stating "Are you sure you want to change the settings for this zone" click yes to confirm the changes. Then click on "ok" button & proceed with the ETendering processes. The machine setup is over.

4) Settings required for Internet Explorer 10.

Click on Tools option as per the screen shot. If this Tools option is not visible to you then follow the following steps – Right click on Address bar > Menu Bar > enable this.

Then you will be able to get this Tools option. Go to the Compatibility View Settings.

Add mcdetender.com in to Add the Website: option and click on Add button.

After clicking on Add button you will get the mcdetenders.com in the below section of Websites you've added to Compatibility View as per the screen shot.
